

## Agua Cashmir Upholstery Fabric

**Agua Cashmir** is a specialist fabric with many inherent properties

It is important to look after the fabric to help maintain its appearance and condition.

### Fabric Care

- **General care:** Regular vacuuming and wiping with a damp cloth to remove dust particles
- **Spillages:** remove as quickly as possible with an absorbent dry cloth
- **Minor soiling:** wipe with a clean damp microfibre cloth
- **Water based stains:** mild liquid detergent with warm water, followed by drying with an absorbent microfibre cloth. Use cold water for stains produced by bodily fluids.
- **Other stains:** use proprietary products, following the instructions on the container carefully
- **Hypochlorite or Alcohol based solutions:** can be used in extreme circumstances (10,000ppm)
- **Steam cleaning:** can be completed in situ
- **DO NOT MACHINE WASH OR DRY CLEAN**
- **DO NOT USE AS LOOSE COVERS**
- **Always pre-test cleaners on a hidden piece of fabric to evaluate the colourfastness and texture of the fabric before proceeding with cleaning**

**Please note that stains caused by bodily fluids should be removed immediately.**

**As with all fabrics, stains that have been left in situ for over 24 hours will have set and will become increasingly difficult to remove.**
