### Fabric Care

- Poorly fixed clothing dyes, e.g. denim, will cause permanent staining. Most stains can be removed using cold/warm water and a clean microfibre cloth.
- Use a vacuum cleaner or soft brush to remove dust and solid particles.
- Wipe frequently with a damp cloth to maintain the appearance of the fabric.
- Remove all stains immediately before they set. All spillages should be removed immediately with a clean absorbent cloth.
- If soap based cleaners are used, all soap residues must be rinsed from the fabric.
- Can be steam cleaned in situ.
- Do not machine wash or dry clean.
- Can be cleaned with mild Hypochlorite solutions (10,000 ppm of available chlorine) e.g.: Haz Tabs, Chlor-Clean. Continued use may cause discolouration and surface damage.
- Always try cleaning products on a hidden piece of fabric to test suitability.
- Do not use: solvents, abrasives, chemical agents, waxes or polishes as this will damage the surface of the fabric.
- Do not use marker pens on the back of the fabric.
- Please refer to the Lunar Fabric Technical Specifications PDF download on the Agua website for further details.
